

Credit Name: CSE 2120

Assignment Name: Exercise 14 Conways Game of Life

## Error Log Entry

What error message did you encounter (if any)?

None

What unexpected behavior did your program exhibit?

almost entire grid filled with live cells

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

Logical error

Include a screenshot of specific lines of code.

```
192  if ((numN == 2 || grid.isAlive(row, col)) || numN == 3) {
193      nextGrid.setCellState(row, col, Cell.ALIVE);
```

How did you fix the issue?

Changed the || to &&

Provide the corrected code or solution using a screenshot.

```
192  if ((numN == 2 && grid.isAlive(row, col)) || numN == 3) {
193      nextGrid.setCellState(row, col, Cell.ALIVE);
```

## Error Log Entry

What error message did you encounter (if any)?

Unhandled exception type InterruptedException

What unexpected behavior did your program exhibit?

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

Incorrect function usage

Include a screenshot of specific lines of code.

```
void playRound() {
    System.out.print("How many cycles would you like to run? : ");
    int numCycles = in.nextInt();

    for (int i = 0; i < numCycles; i++) {
        System.out.println("Cycle: " + i);
        runCycle();
        Thread.sleep(250);
    }
}
```

How did you fix the issue?

added in throw decleration

Provide the corrected code or solution using a screenshot.

```
169  void playRound() throws InterruptedException {
170
171      System.out.print("How many cycles would you like to run? : ");
172      int numCycles = in.nextInt();
173
174  for (int i = 0; i < numCycles; i++) {
175
176      System.out.println("Cycle: " + i);
177      runCycle();
178      Thread.sleep(250);
179  }
180  }
181  }
---
```
