

Credit Name: CSE 3120

Assignment Name: chapter 7 Game of 21 exercise 6

Error Log Entry

What error message did you encounter (if any)?

No Error message

What unexpected behavior did your program exhibit?

Would not properly display the value of aces

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

the code was looking for "Ace" but the String was "ace"

Include a screenshot of specific lines of code.

```
73 HARDACE(-10, "ace");
```

How did you fix the issue?

Capitalized "ace"

Provide the corrected code or solution using a screenshot.

```
"Ace");
```

Error Log Entry

What error message did you encounter (if any)?

No error message

What unexpected behavior did your program exhibit?

Code wasn't properly accounting for aces if the user/dealer went above 21

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

< was used instead of >

Include a screenshot of specific lines of code.

```
181
```

How did you fix the issue?

changed < to >

Provide the corrected code or solution using a screenshot.

```
if(total > 21 && playerAce > 0) {
```

Error Log Entry

What error message did you encounter (if any)?

no error message

What unexpected behavior did your program exhibit?

during the dealer's draws the total would change but the displayed drawn card wouldn't

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

logic error

Include a screenshot of specific lines of code.

```
139 System.out.println("You draw a " + draw.getDisplay() + " and now have (" + getTotalFor(Role.PLAYER) + ")");
```

How did you fix the issue?

changed the System.out to display the new value each time rather than the value of a variable

Provide the corrected code or solution using a screenshot.

```
drawCard(Role.DEALER).getValue()
```

Error Log Entry

What error message did you encounter (if any)?

Type mismatch: cannot convert from exercise6_gameOf21.Rank to String

What unexpected behavior did your program exhibit?

Attempted to convert a string to the enum values

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

incorrect function use (forgot to update variable after modifying code design)

Include a screenshot of specific lines of code.

```
124 Rank draw = null;
```

How did you fix the issue?

changed variable from String -> Rank (enum)

Provide the corrected code or solution using a screenshot.

```
Rank draw = null;
```
